Conqueror 940 AD Game Instructions:

1. Boot the game directory (or "emulationbios") and start the game. Press "Space" to continue.
2. When the game starts, go to our website and download/install the game to your machine:
3. When the game is finished, go to your browser (eg. mozilla firefox) then:
4. Choose your language (English, French, German, Spanish, Chinese...) and press "Install Original and Play" button. This will integrate the game into your copy of Conquerer 940:
5. Enjoy the game!

Note: Here you must search for *a problem*, but I do not know who or when.
Note2: When you select a section, the game will jump to the section to buffer it, then drop you back in the game.
